

Multiple Births from Same Ewe, 1772

A Person sent us the following, which he says may be depended on as real Truth, — On the 20th of March last Francis Whipple Esq; of Westborough had a Sheep lambbed two Lambs which lived 48 Hours, and on the 8th. of April which was two Weeks and 5 Days after, the same Sheep had three Lambs more, one of them dead, but two are now living: The five all appeared to be well grown.

Boston Post-Boy, April 20, 1772, p. [3].
